

Renewable Energy Certificate Solar Water Heater & Heat Pump Assignment Form

About RECs:

Renewable Energy Certificates (RECs) can be created by owners of Solar Water Heater and Heat Pump systems. System owners can assign the right to create RECs to registered agent DCFX Solar Systems Pty Ltd. RECs are produced under the government's Renewable Energy Target (Renewable Energy Electricity Act 2000) to encourage renewable energy production and provide an incentive for Australians installing renewable energy systems. REC Calculation

The number of RECs depends on the type of system, the solar zone rating and the date of installation. To calculate the number of RECs that may be created by an eligible system, first determine your post code solar zone rating provided at www.pyramidpower.com.au/solarzones. Find your eligible system on the Register of Solar Water Heaters at <http://www.orer.gov.au/swh/register.html> and confirm that your system was installed within the eligible dates. Use your post code zone rating to calculate the number of certificates

- ❖ RECs may only be created once for an eligible Solar Water Heater and can only be claimed within 12 months of the system being installed.
- ❖ Number of RECs must be rounded down to the nearest whole number if greater than 1 MWh

Postcode Solar Zone Rating ⁽ⁱ⁾ :	Installation Date Eligible from:	Installation Date Eligible to:
No. of RECs	REC value	Amount payable

Notes:

(i) Solar Zone 1=1.622, Zone 2=1.536, Zone 3=1.382 (eg Bega, Merimbula, Cooma, Narooma, Batemans Bay, Moruya, Jindabyne), Zone 4=1.185 (eg Melbourne)
